Design Fiction Evaluation - Interview Protocol

Intro

Design Fiction Exploration

- What do you think about the 4 different scenarios?
- Imagine yourself participating in a meeting/lecture like the one in the scenario. How would this make you feel?
- Which one do you like best?
  - Why?
  - Besides the positive aspects (x, y, z => paraphrase) that you mentioned, are there also any aspects you don't like about this scenario?
    - Why?
- Which one do you like least?
  - Why?
  - Besides the negative aspects (x, y, z => paraphrase) that you mentioned, are there also any aspects you don't like about this scenario?
    - Why?
- In what kind of situations would you use these systems?

Follow-up Questions

- What would you change about this scenario to make it more appealing to you?
- What other situations would you use this technology for?
  - Please elaborate
- With whom would you like to participate in a meeting/lecture like this?
  - Why?
- If a system like this was available, do you think it would encourage more people to do walking meetings?
  - Why/why not?
  - Do you think this would affect who would participate in your walking meetings?

Wrap-up

Useful Follow-up Questions/Reactions

- Why is that?
- Can you tell me more about it?
- Can you think of an example?
- Echo: repeating the last part of a user's reply What do you mean by __?
- Waiting/Silence
